Forecast for Monday 11 Jul 2022

Weather: Dry and sunny throughout the day, with light and variable winds. Temperatures will rapidly rise after a fresh start, and feeling hot by the afternoon, especially in valleys and on sunny ascents. UV levels will be very high. Skies will become hazy during the course of the afternoon.

Chance of cloud-free hill tops above 600m: 100%

Low cloud and visibility: No low cloud expected. Good visibility expected, although heat haze may limit clarity on distant hills.

Freezing Level*	3200m	3100m	3100m	3000m	2900m	2800m	2800m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

The heat may make for arduous climbing, especially through the afternoon. Ensure you have plenty of water and protection from the sun to minimise the risk of dehydration, heat exhaustion and sunburn.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Mon 11 Jul 2022	0mm	0mm	0mm

Forecast for Tuesday 12 Jul 2022

Weather: Rather cloudy with outbreaks of light and patchy rain pushing south and east across the Brecon Beacons from mid-afternoon. Remaining cloudy into the afternoon with a risk of some light rain or drizzle at times.

Maximum wind: Southerly 10-15 mph becoming westerly 10-15mph during the afternoon.

Chance of cloud-free hill tops 600m: 90% reducing to 40% for a time during the evening.

Low cloud and visibility: Cloud base generally above the level of the summits, with generally good visibility. However, bases likely to lower towards 500ft for a time in the evening, thus limiting visibility on some slops and summits.

Temperature: **Valleys:** Plus 15 Celsius becoming plus 26 Celsius.
At 600m: Plus 17 Celsius becoming plus 19 Celsius
Freezing level: Well above the summits.
